## Regular Meeting of Women's Institute

Mrs. M. Leonard assisted by Mrs. Smith and Mrs. McKinley entertained the Womens Institute on Tuesday. Eleven members answered the roll call "An Alberta Product I Use in Our Home."

The Institute have set Saturday, October 24th as the date of their first Saturday night dance.

Mrs. Leonard, as official delegate, read a report of the constituency conference which was held in Strathmore in August. Mrs. Kemper read a paper "Canada Fish Foods." A solo by Miss Marjorie Leonard was well received. Tuesday being the president's, Mrs. McColman, birthday the hostess presented her with a beautiful birthday cake and the members gave her a handkerchief shower. The hostesses served a delicious lunch.

## Fortnightly Crop Report

Issued by the Dept. of Agriculture, Edmonton;

Cutting of grain is ninety-five per cent completed throughout the province. A few late fields of green feed in the northern districts, remain but this does not amount to more than about five per cent of the crop area.

The amount of threshing done varies considerably in different parts of the province.

Potato digging is in progress. A fair crop of good quality is reported in the southern part of the province and a heavy crop in the northern districts.

Very little fall plowing has been done.

Feeder cattle are moving in considerable numbers to feed lots in southern Alberta, particularly in the irrigated districts where there is an abundance of alfalfa and other fodder.

"Bathing costumes must be examined by the beach inspector" is a notice exhibited at a seaside resort. Life is becoming one banned thing after another.

## The P.T.A. Elects Officers

A meeting of the P.T.A. was held at the home of Mrs. MacLeod on Monday evening, there being fourteen members present and the regular business was carried out. Mrs. Weins and Mrs. Leonard both gave papers and Mrs. Weins a piano-fort solo.

The following officers were elected for the year:

President—Mrs. Lewendon.  
1st Vice-Pres.—Mrs. J. Weins.  
2nd V.-Pres.—H. McCullough  
Secretary—Miss I. MacLeod.  
Treasurer—Miss L. Spencer.  
Directors—Mrs. C. G. Taylor, Mrs. G. Jones, Messrs. E. Bird, C. Johnston and E. Lewendon.  
Program Committee—Mrs. MacLeod, Mrs. J. W. Weins.  
Hot Lunch Committee—Mrs. H. Ellis, Mrs. M. H. Ward.

## World Grain Exhibition at Regina Delayed

Regina, Oct. 2. — The World's Grain Exhibition and Conference which was to have been held in Regina in 1932 has been postponed until 1933.

Announcement to this effect was made Thursday night by Hon. Robert Weir, Federal Minister of Agriculture and chairman of the National Committee of the grain show, after he had received resolutions from the council of the Regina Board of Trade, and the Board of Directors of the Regina Agriculture and Industrial Exhibition Association, urging postponement for a year, rather than its cancellation.

Mr. Weir Thursday night said he was in complete accord with the terms of the resolutions and favored the postponement of the World's Grain Exhibition and Conference for one year.

One of the biggest difficulties in reaching this decision was to determine the effect postponement or cancellation would have on the City of Regina, in view of the commitments that the city has already made.

Replying to criticism regarding his announcement as to the fate of the grain show, Mr. Weir stated that at no time had he set a specific date for such announcement.

## Jr. U.F.A. Meets at the Home Mrs. Lewendon

The Jr. U.F.A. met for their first meeting since June at the home of Mrs. E. Lewendon Tuesday October 6th. The regular business meeting began and the election of a new president resulted in Francis Mason taking the office in the place of the preceding president Russel Burriss.

The following new committees were elected: Debate Convenors; Kathy MacLeod and Miss Le Beau Pageant Committee: Miss MacLeod, Francis McBride and Girlie MacLeod. Dance Committee: Vivian MacKinley and Avis Horning.

The Program was as follows: Talk on "Peace"—Mrs. McBride.

Reading—Miss Le Beau

Jr. U.F.A. Paper—Girlie MacLeod.

Solo—Jean MacLeod.

The Juniors decided to hold a dance in Phillip's hall Saturday October 17th.

The next meeting is social and will be a Hallowe'en party held at the home of Mr. and Mrs. C. G. Taylor on the 27 of October.

## Ladies' Aid of Brethren Church

The Ladies' Aid of the Brethren Church, will hold a harvest supper and home cooking sale on Saturday, October 17th.

The Aid meets every Thursday in the basement of the church and have been kept quite busy all summer, quilting and filling orders of numerous articles. A welcome is extended to every one interested in Aid work.

A passer-by stopped to watch an old man in his garden weeding. "Which weeds do you consider the easiest to kill?" he asked. "Widow's weeds," answered the old man. "You have only to say 'wilt thou' and they 'wilt'."

## Monday, November 12th Public Holiday

At the last session of Parliament it was decided to move Thanksgiving Day forward to a date in October as was the custom up until a few years ago and observe November 11th in each year as "Remembrance Day." This has been celebrated heretofore as Armistice Day in conjunction with Thanksgiving, the joint holiday always being observed on the Monday of the week in which November 11th fell. Under the new legislation both days will be observed as public holidays. Thanksgiving has been proclaimed for Monday, October 12th, and Remembrance Day will fall on Wednesday, November 11th. Both will be school holidays.

As a measure of economy he usual district conventions of teachers will be discontinued for this year. School authorities and teachers reading this notice are asked to give it as wide publicity as possible that no confusion may result.

With the red, white and blue barred standard of Siam fluttering above them in the summer sunshine, pipers from all parts of Canada proudly marched and counter-marched in the grounds of the Banff Springs Hotel, Banff, Alta., during the recent Highland Gathering, which was graced by the presence of T.M. King Prajadhipok and Queen Rambai Barni of Siam and their suite and a large number of distinguished guests. His Majesty, who opened the festival by raising the flag of St. Andrew, met an interesting character in the person of "Willie" Campbell, of New Westminster, B.C., who was a piper on the personal staff of

H. M. Queen Victoria, when King Chulalongkorn of Siam paid an official visit to her, at Osborne House, Isle of Wight, in 1894. Piper Campbell gave a special performance for King Prajadhipok, at the Banff meeting. A new feature of the Gathering was a competition for representatives of pipe bands of the 17 Canadian Scottish militia regiments, which was won by Piper Hector MacDonald, of Montreal. Dancing and Highland sports rounded out an excellent program, with specially presented Scotch light operas in the evenings. The picture shows the massed pipers, parading under the Siamese flag and (inset) T. M. the King and Queen of Siam and Piper Campbell.

## Quo Doctrina?

At our school fair we had the pleasure of meeting our Inspector of schools. It was while the basketball game was in progress and we were talking less than three minutes. Yet much can be revealed in that length of time. And the conversation showed a more or less common outlook and suggested this article.

Is athletics an essential part of the school program? Many business and all professional men are college graduates and the successful among them look back on the school days as the time they learned how to get along with their fellows. With the exception of such elementary studies as the three R's, the information imparted in even the Public Schools is transitory. Geometry has supplanted Euclid, wars have changed political geography and science remodelled physical geography while History is taught from so different an angle that one scarcely recognizes periods on which he spent special efforts in academic days. Knowledge changes and the best that schools can do for us is to teach us to study. But the art of working with our fellows was the same in Adam's time as it will be a millennium hence.

Now we cannot help but feel that it is a great loss to the students when they neglect the companionship and the leadership of the teaching staff but we are told that in many colleges lectures are missed and examinations ignored by serious students so that they may take part in social, athletic and other activities of the student body. They calculate that these better fit them for later life. The Duke of Wellington is credited for saying that Waterloo was won on the rugby fields of Britain. And with all due respect to our instructors we must admit that a large part of a child's education is carried on during the recess periods. And for this reason public schools are better than private tuition. And team play does not end with the last game on the college campus. Then let us back both staff and students in their athletic activities.

UNUS SOLUS.

Alaska is not a cheap hunting ground. The average expedition calls for an expenditure of \$2,000 or more per man. Hunting is feasible only about 60 days each year. The hunting regions rarely are clear of snow before June 1, and the spring bear season closes on June 20. After the fall season open on September 1, about 40 days remain in which good hunting weather may be expected.

## WHO'S WHO

(By Gee)

## Mr. Justice W. M. Martin

ONE of the most important committees of the World's Grain Exhibition and Conference is known as the Citizens' Committee. This committee acts as a medium through which matters pertaining to the mutual welfare of the Exhibition and Conference and the city of Regina (where the world-wide event is to be held in 1932) are carried to the organizations having representation on the committee.

Mr. Justice W. M. Martin, of the Court of Appeal of Saskatchewan, is chairman of the citizens' committee. He was born at Norwich, Oxford County, Ontario, and received his education at the Exeter Public School, Clinton Collegiate Institute, Toronto University and Osgoode Hall.

Moving to Regina in 1903, Judge Martin engaged in the practice of law. He was elected to the House of Commons as member for Regina in the elections of 1908 and 1911. In 1916 he was called upon to assume the Premiership of Saskatchewan and also took the portfolio of education. He became a member of the Court of Appeal of Saskatchewan in 1922.

## Co-operation

Co-operation is a word which is used rather too freely; also, it has been misused to an extent that some people are apt to be irritated when they are told that they should co-operate. Nevertheless, the term does express the idea of working together, of team play, and it is about this which we wish to say something to our readers.

The schools are now open, and the parents of the school children are naturally anxious that their children should do well in school and secure the greatest benefit possible out of the time given to their studies. The entire responsibility for this does not rest on the school staff. The parents have their part to play, which is more than simply paying school taxes. If the best result are to be obtained, parents must co-operate with the school, and the school and the school with the parents.

The child should be properly prepared for school. The child who has diseased tonsils, or who cannot breathe properly through his nose on account of adenoids is not properly prepared for school. His time there will not be spent to the best advantage. The school cannot alter this condition; but the parents can.

The child who requires glasses is handicapped until he is properly fitted with the glasses he needs. Toothache will distract the attention of the brightest child. Running ears lead to deafness.

All this means that parents should see that their children have all their defects corrected by proper treatment, as it is only in this way that they are given a fair chance to develop properly and to profit by their time in school. The most that the school doctor or nurse can do is to advise parents to take their children to the family doctor for whatever treatment they require. If there is no

school doctor or nurse, the parents would be well advised to have their doctor examine their children, for even though they may appear to be well, they may be suffering from some condition which requires attention.

Health is closely related to proper diet. The school child is active and is growing, so that he requires, in abundance, food that will provide energy and building materials. The adequate breakfast which should begin the day, and which should have allotted to it sufficient time in which to eat it, means that the child should go to bed early enough to have long hours of sleep and to be rested when it is time for him to get up.

When the noon meal is to be taken at school, parents should interest themselves to see that there is provided a clean place for eating and that there is also provision for some hot food during the cold weather. Parents are responsible for the feeding of their children, and they should work in conjunction with the school to secure a proper noon meal for the school children.

The school is expected to do a great deal for the child. What it can do depends in a large measure upon the helpful co-operation given by the parents to the school in the common interest of the welfare of the child.

## Here and There

"What could we farmers hope to accomplish without our railways?" asked a Kentucky agriculturist recently. He added that no agency had contributed more to the prosperity of the farmer than the railways.

"I have never yet found any place where the salmon fishing could compare with New Brunswick," said Arthur Train, well known novelist, speaking at a camp dinner given in his honor recently by the New Brunswick Tourist Travel Bureau.

Encouragement came to western Canada's farmers and agriculturists with the return to normal temperatures and varying rainfall of mid-July. In the drought areas of Manitoba and Saskatchewan and to a less extent in Alberta very great benefit has been felt.

Authentic rainbow trout weighing 7½ lbs. were taken recently in the French River six miles below the bungalow camp, the first ever caught there according to the oldest guide. It was caught by E. A. Farintosh, of New York, a yearly guest at the camp.

Since the split up of Canadian Pacific Railway common stock into four for one, this issue has taken on great popularity with the general run of investors. Between September and June 1931, the number of these increased from 21,186 to 84,872, an increase of 13,686.

Over 250 members from Ramesses Temple, Toronto, went to Cleveland recently by Canadian Pacific special to attend the annual conclave and imperial council of the Ancient Arabic Order of Nobles of the Mystic Shrine. This conclave was held last year in Toronto.

A great influx of tourists is coming into the Maritime Provinces this year, the chain of the Canadian Pacific hotels at Yarmouth, Digby and Kentville proving strong influences in promoting the traffic. The ten-day all-expense Canadian Pacific tour to the Toronto Exhibition next month is also drawing much attention in the Maritimes.

Grain exports from the port of Vancouver this year will probably exceed 75 million bushels. Up to June 4th wheat shipments amounted to 65,331,501 bushels. Accommodation for deep sea vessels has increased from 12 piers in 1920 to 24 piers at the present time and elevator capacity has increased from 1,240,000 bushels to 16,205,000 bushels.

An Indian Schoolboy's band of which the leader was also a schoolboy and in which the instruments were mouth organs, gazoos and other noise-makers was one of the features of Indian Park at Banff which opened July 21. This was counterbalanced by a septuagenarian Chief's Choir of 18 chiefs and ex-chiefs who rendered airs taught by the first western missionaries back in the 1860's long before the Canadian Pacific Railway penetrated the mountains.

Six First Aid championships and five second places fell to Canadian Pacific Railway teams across Canada according to the recent annual report of the St. John Ambulance Association. Of these, three firsts and one second were captured by the Railway's Montreal Police Team. The second was in the coveted Montzambert Trophy, representing the championship of Canada for all comers in which they were only five points behind the winners, Royal Canadian Army Medical Corps of Kingston, Ont. ## Permanent Plastering

(National Crop Improvement Service.)

"Building the weather out is fully as important as maintaining a fire in the furnace. In the old days when we scorched our faces and froze our backs at the open fireplace, we went shivering to bed and breathed icicles on the coverlid.

"We have learned to plaster our houses inside and out, but in frame construction we have always had difficulty through expansion and contraction of preventing the plaster from cracking and scaling off.

"But the introduction of triangular steel reinforcement and the improvement of outside plasters has corrected this evil and a house now could be tumbled end over end and its plastered walls remain intact," says Mr. R. S. Rider, president, Canadian Steel & Wire Co.

"Another feature is that reinforced stucco never has to be painted, which is something every home owner will appreciate."

## School Notes

It's the week for reports and some children, we expect, are getting an added incentive to study hard in the form of some small reward while others are being promised something not nice if they don't cut out the fooling and get down to business.

The High School Boys have to rely on leap-frog as the recess game because it requires no equipment other than a strong back. The boys need some rugby and baseball goods as there has been no addition to the sports equipment for some years.

Rosemary: (slapping her arm) "This is terrible! There must be something I can put on to keep the mosquitoes from biting me."

"British steel for Canadian produce," is the slogan lettered on massive shufflings unloaded at Saint John recently for shipment over Canadian Pacific Railway for use in hydro-electric development plants at Beauharnois, Quebec, and in the valley of the Ottawa River.

France should prove an excellent market for Canadian wheat since she has not committed herself to regulated purchases of wheat from Central European countries, said Hon. C. A. Relayed to twenty-two stations between Quebec City and Victoria by Canadian Pacific Telegraphs the speech of the Prince of Wales, opening the British Trade Fair in Buenos Aires, was clearly heard across the Dominion. The broadcast was brought to Canada direct from Buenos Aires by the short wave beam system of the Canadian Marconi Company.

What the Ice Age looked like, millions of years ago, is exactly pictured in the great Columbia ice-field, extending for hundreds of miles in the Rockies, and easily accessible from Lake Louise, said Walter L. Payne, in a recent lecture entitled, "On Horseback to the Glacial Age." The field extends in the form of glaciers to three sides from which mighty rivers run to the Arctic, Pacific and Atlantic oceans.

Champions of the Railway-Phone League and winners of the Beatty Trophy and the Thornton Cup, the Canadian Pacific Railway hockey team, were individually presented with gold watches suitably inscribed, the gift of E. W. Beatty, chairman and president of the system, in honor of their victory, at a banquet at the Place Viger Hotel, Montreal, recently. The team will play Winnipeg at the end of March for the all lines hockey championship of the Railway. (119)

## Thumb Nail Sketches By Cy

### Two Fur Coats

It was at Toronto Exhibition last year. A typical American farmer, a true Uncle Sam, even to the bit of spinach on his chin, strolled along the passage way scrutinizing the exhibits. He was a married man of some years standing, as evidenced by the fact that his wife, to whom he spoke frequently, strolled along a few feet in the rear.

Finally he stood quite still and gazed across the passage way. His eyes were fixed upon a moderately sized printed card, framed and supported by an easel which rested upon a table inside the railing.

The expression of his mouth said plainly, "Here's something good. It'll be a new one on neighbor Smart." He didn't move for some minutes. For a few moments after the arrival of the wife there was quiet, animated, but rather happy conversation, accompanied with glances and thumb pointing at the easel across the way. Then the pair, single file, proceeded to cross over.

The attendant who sat by the table upon which the easel rested was attentive and talkative.

"Well, brother, I'll bite. What's the joke?" said our American cousin.

"There is no joke," said the attendant. "If you can place in the hands of the Secretary of this organization at Regina on or before March 1st, 1932, the ten ears of corn which a competent committee of judges conclude are the best ten ears of corn in the world, we will pay you \$800 in good Canadian cash—and you can take the corn back home with you."

The eyes of the pair shifted to the large painting at the rear of the exhibit. "Oh, I see, Mother," said he to Mrs. Sam, "this is a grain show."

They looked again at the easel. "Egad," he muttered, "that's \$80 a cob—a bit fishy, isn't it?"

Then to the wife, "Say, Mother, what did I get at Chicago that time my corn got into the money class?"

She spoke now for the first time. "\$20," she informed him.

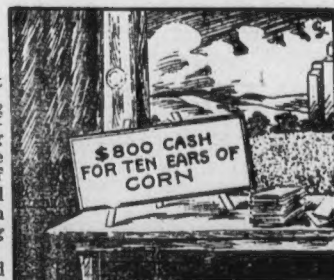

"Pretty big prize, \$800!"

"Gimme some of your literature," he requested. "You Canadians have put one over us for the present, but wait till 1932 before you crow too loud. Mother and I had planned to take a trip to Texas in '32 but we're coming to Regina and we're going to bring that corn along with us. \$800 of good Canadian cash looks good to me. Two nice fur coats—one for mother and one for me—will help us to put on a bit of style befitting a visit from the 'World's Corn King' when we come back in 1933 to thank you personally for your generosity."

"Good-bye and good luck."

Mr. and Mrs. Sam crossed to the other side of the passage way and resumed their sight seeing where they left off a short time before.

The easel and the card now reposes on the attendant's desk in the office of the World's Grain Exhibition and Conference at Regina. The offer, "\$800 for ten ears of corn" still stands good and it is open to all the world.

### The Tree of Man

The tree that never had to fight  
For sun and sky and air and light,  
That stood out in the open plain,  
And always got his share of rain—  
Never became a forest king,  
But lived and died a scrubby thing.

The man who never had to toil  
To Heaven from the common soil  
Who never had to win his share  
Of sun and sky and light and air—

Never became a manly man,  
But lived and died as he began.  
One ship drives east and another west,  
With the self-same winds that blow;

'Tis the set of sails  
And not the gales,  
Which decide the way to go.

Like the winds of the sea are the ways of fate  
As we voyage along through life;

'Tis the will of the soul  
That decides its goal  
And not the calm or the strife.

—Trotty Van Messenger.

## The WAGGIN' TUNG

Vol. 1, No. 8, Arrowwood, Oct. 8, 1931 Items for Thor

### A Retraction

When an agent is representing an oil company like the British American Oil Co. Ltd. and knows that all its products must come up to certain high standards set by the Company before it is offered to the public, and that this same test and high standard was required by the British American Oil Co. Ltd. before they offered their tractor distillate, to tractor owners of Alberta, which accounts for our lateness in securing this now much sought for tractor fuel for the farmers and knowing the high standard and quality of the goods put out by the Oil Company which we represent. In a recent issue of the "Waggin' Tung" we not only recommended our tractor distillate for tractors, but even suggested that some of our customers use this tractor distillate in their cars. This retraction covers that part of our former statement only in so far as tractor distillate applies to cars, and we, therefore, caution our customers that our Tractor Distillate is sold only for use in tractors and to bona fide tractor owners only.

With pardonable pride, but in keeping with the high standard of quality of the goods we handle, we wish to call your attention to our Autolene--one of the largest implement and tractor factories in the United States, whose products are sold throughout the Dominion, after exhaustive tests in their laboratories, found that British American Autolene oils ranked second only in lubricating qualities. Another good reason why AUTOLENE is justly called "the life saver of gasoline engines."
